OLD BUSINESS

- Common Area Projects
 - Obstruction Removal – The need to establish a plan for the maintenance of the large, primary wetland was discussed. Riley will continue to monitor this area and will recommend how often it needs to be mowed and will obtain 3 quotes for the cost of this service.
 - Wetlands Brush Removal - Angela G reported that she has been following up with the landscaping company. They indicated that it has been too wet to mow the 3 areas with which we contacted them to mow. He plans to start this week.
 - Pre-emergent – Angela G spoke with the landscaping company also because pre-emergent has not been sprayed in many areas. He offered to provide a \$710 credit to us for this lack of service. CSolutions will check the area around the pond for pre-emergent.
 - Rockwell/Common Area Landscaping – Marsha, Angela G and Kathy Wootten reviewed the Rockwell and entrance landscaping this week. They recommend that we remove all of the bushes and metal rings around the six landscaping beds and place sod in their place. They also recommend that we obtain 3 bids for landscaping the entrances. The Board approved moving ahead with these recommendations.
 - Entrance Streetlights – The movement of streetlights closer to Rockwell was discussed considering the recent announcement that Walmart will be building at the corner of Memorial and Rockwell. Riley will attempt to move forward with a relationship with Mark Stonecipher’s office to determine if we could identify the contractors in order to improve our entrance lighting due to the road constriction that will accompany the project. We won’t attempt to move forward until we have more information.
